

COMPLAINTS AND FEEDBACK POLICY & PROCEDURES

Preamble

Kyabra welcomes complaints/general feedback as opportunities to continuously evaluate and improve our activities and accountabilities. We will foster an environment in which clients, employees, volunteers and any other stakeholders can exercise their rights to raise issues of concern and provide feedback, in a safe environment.

Policy

Complaints/feedback mechanisms shall be available to and easily accessible for all stakeholders including clients, employees and volunteers. Kyabra shall ensure that stakeholders are made aware of these mechanisms and that complaints are handled in a confidential and respectful manner. No individuals will be disadvantaged in any way from lodging a genuine complaint.

For the purposes of this policy, a complaint may be any dispute or conflict that arises between stakeholders of Kyabra.

All criminal issues will be referred to appropriate authorities as soon as possible (i.e. Police and/or the relevant Department).

Record Keeping

If the complaint/feedback is of a service-specific nature, the relevant Coordinator/Manager documents the complaint/feedback and follows up on any agreed upon actions. The information is entered into the relevant Complaints/Feedback Register which can be accessed by Organisational Management Team. The information is entered by the relevant Manager and discussed with Organisational Management Team, as required. The Manager will discuss complaints/feedback during supervision sessions, and will document any follow up to the complaint or feedback. Information contained in the complaints/feedback register is used to inform relevant team planning processes and, if appropriate, operational planning processes.

If the complaint/feedback is not resolved at a service level or is of an organisational nature, this will be discussed at an Organisational Management Team meeting. The relevant Manager/CEO will follow up on any agreed upon actions.

Any records regarding complaints will be kept for at least five years or as required by law.

Anonymity

Individuals can choose to make an anonymous complaint however this can limit the investigations possible and Kyabra would not be able to notify the complainant of the outcome.

Whistleblowing

For the purpose of this Policy, Whistleblowing is defined as making a complaint about suspected or actual serious misconduct within Kyabra. Examples of serious misconduct include behaviours that are illegal, unethical, fraudulent, corrupt and unsafe.

Kyabra encourages individuals to report any actual or suspected misconduct via the Kyabra Complaints and Feedback Policy and Procedures or report directly to the relevant authorities.

All new staff members are provided with information regarding Kyabra's policies during orientation and via regular "policy of the week" email updates.
